MONTENEGRO

Highly motivated to qualify as a potential EU candidate state, Montenegro has made numerous steps to contribute to and implement programs for Roma inclusion. Meanwhile, the need for sustainable change in the education sector remains high. Roma and Egyptian (RE) children generally enroll late and drop out of school early. While 98.2% of primary school age children attend primary school, just 64.5% of RE children do. Furthermore, Montenegro faces the problem of many so-called invisible RE children, i.e. those who have never attended or enrolled into school (Statistical Office of Montenegro, 2014).

Since the cessation of violence in Kosovo in 1999, in which many RE were driven from their homes, Podgorica has housed more than 3,000 RE individuals at Konik Camp. RE residents have lived in substandard housing with little or no public services until recently.

REF has aspired since 2013 to close the segregated branch school in Konik Camp and provide a systemic solution for the inclusion of RE children at all levels of education. The REF representative office in Montenegro aims to support the local implementation of projects in line with the mission of REF, namely supporting desegregation, quality education, early childhood education projects and also establishing a Secondary and Tertiary Scholarship Fund for RE students with financial support, investing in professional capacities of professors, mentoring and academic tutoring for RE students.

SINCE 2005

**Roma Education Fund has supported**

- 1,200 Teachers
- 8,300 RE children and youth
- 16,000 RE parents and caregivers

**Roma Education Fund has invested**

- more than € 962,000 in Montenegro
